BRANDEIS UNIVERSITY

Greg Tobin

Pitcher

Greg is a machine in the weight room. In addition to being one of our most technically sound lifters, he is also one of our most athletic and strongest pound for pound. His excellence in the weight room is paralleled only by his excellence on the mound. ~Jay Mendoza

DALLAS BAPTIST UNIVERSITY

Kragen Kechely

Pitcher

Senior

Kragen has exemplified what it looks like to be a leader in our program. Aside from buying into the program, he has invested in those following his footsteps. He holds others and himself accountable. When Kragen had a setback in the summer of his 5th year (2019), he never needed anyone to stay on top of him with his rehab or the training he was able to participate in. He never needed anyone to baby-sit him and feed him modifications. He seizes every opportunity to set himself up for success, no matter how big or small. Kragen always makes training enjoyable and has left a long-lasting impression on our program. ~Alex Spencer

DUKE UNIVERSITY

Chase Cheek

Outfielder

Chase's dedication to improving himself as a player stems directly from his commitment to daily hard work and high effort in his physical development, mental performance, and recovery. He always does things the right way. He's become a starter, a team captain, and an important leader in our program through the examples he sets every day off the field and on it. Chase's athletic ability has been unmatched in many ways in Duke Baseball history; he's recorded speed and power numbers that we just haven't seen before. Over the four years that I've had the honor of coaching him, he has stood out daily amongst a group of outstanding people. ~Dan Perlmutter

Matt has always been one of the most hardworking athletes in his program and provided a great example to younger players through his actions. He has seen consistent improvement in his weight room performance over the past three years, largely due to his effort. This past fall, Matt's ability as a leader was put on full display. During a mid-semester coaching change, Matt stepped in and stepped up, providing leadership and guidance for a program in transition. He kept everyone together and on the same page, ensured the effort in the weight room remained high, and was a critical voice for the players to the administration during the coaching search.

Justin Smith has been the definition of a lead by example student-athlete. No matter what day, time, or situation, Justin can always be counted on to selflessly lead his teammates throughout a workout. He is in the weight room 5 days per week year-round, no matter how many days are mandatory. He is always the last one in the weight room, checking the racks to make sure everything is where it should be. Justin has a Max Back Squat of 450 lbs but numbers come and go. His character and how he attacks each session is what we admire. He is a 4-Year contributor of our Division I baseball program, and our Head Baseball Coach can count on him to be the one setting up the field, taking care of the details on the diamond as well. He was a runner up for our Strength and Conditioning Athlete of the Year last year, and is on track to win it this year as well. Our culture in the Strength and Conditioning Department is what it is, in large part because of Justin Smith. I would like to give him my highest recommendation for NSCA All-American.

Wyatt Newpower may stand at 6'4" without his skates, but he was initially the guy in the background. He didn't dress for every game, he was quiet, and while an extremely talented ice hockey player, he hadn't found his stride at UConn.

Fast forward four years and Wyatt is a dominant, imposing, demanding, challenging leader in every aspect of his student-athlete career. How he got there is a story of commitment. Some students accept their role within a team even if it is not what they anticipated. Wyatt absolutely did not. As he found himself in his suit and tie in the stands on game day his work ethic only grew. Wyatt dedicated himself to staying each summer to train in our facilities, to improve in ways that commanded attention, to bring the younger guys on board, challenge them to be better than they thought possible, and he only continued to develop.

As a senior captain, Wyatt is the guy who will support his teammate to the end of the earth, encourage the younger guys to keep working, throw his arm around you in support, and will be in your face firing you up when things are too quiet. He embraced the difficult off season training and pushed past limits that he didn't think he could. With his commitment to strength and conditioning he has added 75lbs to his 1RM Power Clean, 40lbs to his 1RM bench press and 175lbs to his 1RM deadlift. Due to his added strength he has become our best male shot putter and has added over 4 feet since his freshman year. His efforts in the ring aided in winning the 2019 LSC Indoor Track and Field Championships. He has also been nominated for the LSC Men's Field Athlete of the week. I am proud to nominate Tyler for this award.

Noah Duperre

3 Meter/Platform

Noah Duperre is, by most measures, a highly accomplished diver. Over his career he has (according to USA Diving's website): Placed in the top ten in 18 national events, finished top ten at 7 international events, and he has committed to dive collegiately at the University of Texas at Austin. As a strength coach, the most noticeable aspect of his training efforts, however, is the way he has utilized his conditioning time over the past year. At the start of last season, Noah had a promising season ripped away from him as a diving injury busted his left foot severely enough to result in surgery and a premature end to his season. Rather than allowing despair and resentment set in, however, Noah turned all his focus into finding ways to progress his conditioning despite his limitations. Seeing the way that he took ownership of his recovery and progression, on top of working on what he could control, Noah took advisement from the Strength staff and his physical therapist and used it to maintain focus and prepare for a triumphant return to the sport he loves. I feel that Noah took massive strides in his personal desire for improvement, and ended up a better athlete and person for it.

Will Bouma

Quarterback

Sophomore

In my experience as a high school strength coach, humility is one of the most impactful traits in a teenage boys' training regime because of the unfortunate (false) social messaging they receive that their identity as "men" is in some way dependent their athletic performance. This makes the weight room space tricky because more likely than not, they over-estimate their abilities and take instruction as a criticism of their masculinity which often spirals downward into a fixed mindset, crippling their potential to grow and learn and perform better. However, Will has managed to overcome that process entirely with his humility. Even in the moments, I can tell it's frustrating for him to go down in weight in order to master form, he's able to regather himself, accurately categorize the instruction as instruction (not criticism) and move towards bettering himself as an athlete. He is on a great trajectory and has developed into a role model in the weight room. ~Erik Hansen

His relentless work ethic and countless hours of dedication to training have made Nathan a true “lead by example athlete”. Through consistent dedication Nathan has achieved a 245 lb hang clean, 410 lb back squat, a 240 lb bench press, a 4.63 pro agility shuttle run, a 4.95 electronic timed 40 yd dash and a 27.9-inch vertical jump at a bodyweight of 210 lbs.

As I look to the future I am confident that Nathan’s continued growth will make all of us who have had the privilege of working with him proud and honored to have been a part of his development as a young man.

I cannot think of anyone more deserving of the honor of All American Strength and Conditioning Athlete than Nathan Smith. ~Mike Durand

Ralph Waldo Emerson's words could well have been in regards to Kyle Stallings; "to map out a course of action and follow it to an end requires courage." Kyle took the potential he had and meticulously followed his training to maximize every ounce of it. Unwavering consistency and commitment resulted in Kyle becoming one of the fastest athletes at Windsor, as he currently holds the football team's 20 yard dash record. His teammates recognized his diligence and hard work by electing Kyle as a captain of the football team as well as selecting him the winner of the Owl Award, which is the highest honor a football player can receive at Windsor. Kyle's work ethic was not limited to his athletic endeavors alone, as he also earned Academic All-Conference honors. While he may not have been the best athlete in the school, he was certainly the best at doing his best day after day, week after week, month after month, and year after year. It is for this reason that Kyle Stallings is an NSCA All-American. ~Ty Van Valkenburg

When he does address a situation, his clear summation of effort and outcomes is powerful. He is not afraid or unwilling to be outstanding in one sport and work hard at the JV level for another; when many of his peers feel entitled to be 'given/assured' a varsity spot or quit, Isaac simply gets back to work building his sport skills and strength/conditioning needs for that specific endeavor. Said of him by a staff member, "I wish I did have 10 more of Isaac- I could spend more time on strategy and less on motivation. He is so driven to be the best he can be." Isaac is the athlete who will not be outworked in his preparation, is straightforward and humble, and would probably tape the ankles and drive the bus to an event if he needed to do so. ~Jan Clifton-Gaw
